COUNTY TO SECURE RIGHT-OF-WAY FOR THE SKY LINE BOULEVARD

Work to be Started on Fourth Unit as Soon as Suits Condemning the Land Can be Settled

At the regular meeting of the Board of Supervisors last Monday, a Communication was received from John Skeggs of the State Highway Commission, asking that the county take steps to secure rights of way for the fourth unit of the Skyline Boulevard, which will connect the Halfmoon Bay road and the Kings Mountain road. Skeggs advised that condemnation proceedings be commenced immediatey.

This matter was called to the attention of District Attorney Swart, who stated that he had already taken the matter up with Mr. Skeggs, and that he was anxious to get the rights of way as early as possible in order that work on the new road might proceed.

A representative of the commission, E. G. Poss, then addressed the board and outlined to them the route which had been determined for the fourth unit of the new road. The matter was laid over until next meeting for further consideration. At that time it is expected that proceedings will be commenced.

The Skyline boulevard is now completed from the beach in San Francisco to a point on the San Mateo-Halfmoon Bay road, near the lakes, and is thus described in "San Francisco Water" by Mr. A. J. Davis:

The Skyline boulevard is the name given to the road now under construction by the Highway Commission, under the supervision of Major John B. Skeggs, from San Francisco to Santa Cruz, following the crest, or skyline, of the hills bordering the Pacific Ocean. The road is unique in its location and presents unsurpassed views along its route.

Beginning in San Francisco, a view of the Ocean Beach and loke Merced is had in the first two miles. Beyond this point Lakes San Andres and Crystal Springs, backed by the wooded hillsides of Sweeney Ridge on the west and the Bay of San Francisco on the east, are presented to the traveler. Proceeding south along the Kings Mountain Ridge the eye covers many miles of redwood-covered hills and valleys, until the climax is reached in passing through the Santa Cruz Mountains. That the road has a utilitarian aspect is indicated by the fact that the military authorities regard it as an important link in the transportation system necessary for coast defense.

During the year 1923 the first two units were completed, comprising the portion between the Great Highway in San Francisco and a point on the San Mateo-Half Moon Bay road at the crest of the divide, a distance of twenty-one miles.

Wherever possible a right of way one hundred feet wide was secured to care for future traffic, but at present the boulevard is constructed with a width of forty feet.

In order to allow settlement of fills, a permanent surface has not been used. As at present constructed, the road is surfaced with macadam and will be sprinkled with water during the dry months.

A reinforced concrete bridge carries the traffic across the Crystal Springs Dam. This bridge has been built at an elevation sufficient to provide for raising the dam high enough to secure an additional three billion gallons in storage.

About eleven miles of the boulevard constructed to date passes through lands owned by Spring Valley, and gives access to heretofore little-known locations. Right of way for these eleven miles was the gift of the company.

The Skyline has been justly called "California's highway of grandeur," and it has the important effect of cancelling a "no thoroughfare" sign that nature placed on the peninsula of San Francisco.

There's no Better Gift Than an Electric Cleaner

An electric cleaner is the best gift for the women because it lightens their everyday burdens of sweeping and cleaning.

It gets in awkward places. It noses its way close to the base boards. It's just as handy for cleaning pillows, upholstering, mattresses and other dust collectors as it is in digging embeded dust and dirt out of carpets and rugs.

It protects good health because it gathers all germs in its dust-proof bag.

For birthdays, anniversaries or other happy occasions there's no better gift than an electric cleaner.

BE GLAD YOU LIVE IN CALIFORNIA

Mrs. C. E. Pulcipher, formerly of Redwood City, but now living in Chicago writes us as follows: "The Times-Gazette comes regularly, a pleasant visitor. Just received last Saturday's issue, read in Woodside items that snow had fallen on the hills and that there had been frost. On January 5 we had zero weather continuously; ranged from 22 below to 17 below in some parts of the city. It didn't get above 12 below for several days.

FORMER MENLO PARK MAN MANAGER LUMBER YARD

Sale of the Olson-Mahony Lumber Company, one of the oldest Companies of its kind on the Pacific Coast, including the stock, equipment and good will, to the Christenson Lumber Company, a subsidiary of Sudden & Christenson, was announced this week.

E. B. McIntyre, who formerly resided at Menlo Park, and was well known here, and who has been with the Christenson Lumber Company since its inception, will manage the retail branch for the new purchasers. The yards just acquired will be utilized by the new purchasers for its retail trade. The entire personnel of the Olson-Mahony Company will be retained by the Christenson Lumber Company.

Sale of the Olson-Mahony Company was due to the desire of Oliver J. Olson and Andrew F. Mahony to devote their entire time to their shipping interests. Charles F. Van Damme, secretary, who for several years has been the active manager of Olson-Mahony Lumber Company, is president of the Richmond-San Rafael Ferry Company, which has grown to such an extent that it will in future demand all of his time, he announced. Shipping interests of both Olson and Mahony have grown so rapidly recently that their undivided attention was imperative for the successful carrying on of the business, it was stated.

The plant is located at Fifth and Hooper streets, and steamers of the new purchasers will discharge there.

Sudden & Christenson, the parent organiation of the Christenson Lumber Company, has extensive lumber holdings in Washington and Oregon. The company's mills at present have a daily capacity of 1,000,000 feet of lumber. Ten ships are operated by Sudden & Christenson.

REDWOOD MAN AND WIFE INJURED IN AUTO ACCIDENT

Mr. and Mrs. Morris Cooper of this city narrowly escaped serious injury when the car they were driving turned over last Sunday. The accident which occured near Cowell in Contra Cost county, was caused by the breaking of the stearing gear in the car, rendering the wheel useless. Both of the Coopers were pinned under the car, and were released by passing motorists. Mr. Cooper sustained severe lacerations of the right leg, while his wife escaped with bruises and a severe nervous shock. Both were taken by passing autoists to Danville, where first aid treatment was administered, and Mr. Cooper was then removed to the Mills Memorial hispital in San Mateo, from whence he was brought home Monday. Both Mr. and Mrs. Cooper are reported to be much improved at this time.

NEIGHBORS OF WOODCRAFT INSTALL NEW OFFICERS

The newly elected officers of the Neighbors of Woodcraft were installed last Thursday evening in due form. Mrs. Gertrude Jones acted as installing officer, and conducted the following oficers into their respective stations: Florence Sahlberg, Guardian Neighbor; Effie Townsend, Adviser; Mary Lawrence, Musician; Selma Locker, Clerk; Daisy Kreiss, Banker; Aida Loukes, Attendant; Laura Walker, Chaplain and Guard; Emma Winter, May Malone and Aphfia Patterson, Outside Sentinel; Elmma Winter, May Malone and Harriet Sahlberg, Managers; and Cora Tucker, Press Correspondent.

A past guardian's pin was presented to Mrs. Clara Jones, and the installing officer was presented with a silver spoon. Retiring guardian neighbor, Mrs. Augusta Sharkey, was also presented with a token from the lodge. The jniation was followed by a banquet and games.

Mr. and Mrs. R. B. Dodge of Hudson street entertained Mr. and Mrs. C H Woodhams and family at a dinner party Sunday in honor of the sary. A happy feature of the afternoon's celebration was a "tin" shower.

The Woman's Club of Redwood City will hold a card party at the club house on Wednesday evening, January 30. A pleasant time is assured.

Local School Enrollment Shows Gain

According to statistics compiled by City Superintendent of Schools, A. E. Monteith of Redwood City, the enrollment of pupils in the local grammar schools has shown a steady and constantly increasing upward curve. Within the last few months this increase has been particulary apparent.

The schools of Redwood City opened in August with 935 pupils. This number was increased to 947 by September, an increase of 12 students. During October 26 new pupils were added to the school enrollment, making a total of 973 at that time. During the month of November the increase fell to 24, possibly because of the approaching holidays, but school closed with a total enrollment of 997 pupils, an increase of 62 during the term. The upward curve is still in operation, as evinced by registration during the month of January which has reached 15 increase in the first two weeks of the month.

This increased enrollment, according to Superintendent Monteith is chiefly caused by new families moving into town, and comes from all parts of tht world. During last month two students were enrolled from Czeko-Slovakia, and three from Germany. Many students are being enrolled from the middle-west and from the east. Four were enrolled last month from the Dakotas and two from Massachusetts; others from other parts of California—Los Angeles, Sacramento, Santa Cruz and many from San Francisco.

The schools of Redwood City are in very crowded quarters. Seven hundred pupils are being instructed in the Central school and the old building on the creek is still doing double duty, after being abondoned for many year as an unfit place for a school. The new quarters in the old high school building will be sorely needed by next March, when it is planned to have the building ready for use.

C. H. GERWIN DIES IN THE EAST

George H. Gerwin, prominent man of this city and San Francisco, who left for New York last month on a business trip, passed away in the East last Sunday. Shortly after Mr. Gerwin's arrival in New York, word was received by his daughters here that he had been stricken with a heart attack and was in a very serious condition. His daughter, Miss Vera Gerwin, immediately left for New York, and Miss Adinel Gerwin, who was preparing to join her sister received word that her father was much improved. She did not leave, and continued to receive encouraging reports. A second attack of heart trouble, however, resulted in his death.

Mr. Gerwin leaves only his two daughters, the Misses Vera and Adinell Gerwin, his wife, Mrs. Anne Gerwin, passed away about two years ago. The Gerwins have been residents of Redwood City for about twenty years. Mr. Gerwin was connected with the firm of Greenbaum, Weil & Micheals of San Francisco, and for years had commuted to and from the city. He leaves a large circle of friends who are grieved at his loss. He was a man who was respected and liked by all who knew him, and the sympathy of all in whom he came in contact, is with his daughters in their bereavement.

DEATH CLAIMS 'COLONEL' GRAY

James M. Gray, a Confederate veteran, known among his friends as "the Kentucky Colonel" and who sold a daily newspaper for many years around the Palace Hotel, died Saturday at the San Francisco hospital. He was 77 years old, and died from natural causes, hospital authorities said.

Gray numbered among his acquaintances and friends many of the prominent people of the coast, among whom he was noted for his soft, drawling humor of the South.

He is said to have served under General Forrest in the Kentucky Rangers, and is reported to have been made a brevet colonel in 1876 by the Kentucky legislature.

Colonel Gray told friends that he was made a Mason on his twenty-first birthday. When President Harding visited San Francisco just before his death, Gray was one of the first to greet him at the Palace Hotel, to wish him well.—San Francisco Examiner.

Colonel Gray resided on Stambaugh street, Redwood City, for a number of years with his wife and daughter, Harriett. He was a member of the local Masonic lodge but, withdrew from the organization many years ago. While residing here he was a practising attorney.

ENJOYABLE EVENING AT MASONIC HALL

After the regular meeting of Redwood City Lodge No. 168, F. & A. M. last Friday night, the master, Charles H. Merrill, informed the members that he had secured some moving pictures for the evening's entertainment. Two reels showing the life, activities and enjoyments of the old Masons at their home in Dakoto and of the orphans of Masons at the Covina home were shown. Two comedy reels were then thrown upon the screen. These features added greatly to the pleasure of the evening.

Clarence T. Roe and Henry Arnold, two prominent farmers of San Gregorio, made a business trip to

FIRST NATIONAL BANK ELECTS NEW OFFICERS

A meeting of the stockholders of the First National Bank of San Mateo County and the San Mateo County Savings Bank was held last Saturday in the office of the bank. At this meeting three new directors were elected by those holding the majority of stock. The new directors elected are, L. T. Ross, L. A. Behrens and C. G. Lambert. This will increase the number of directors to nine, the board being now composed of Geo. C. Ross, P. P. Chamberlain, J. L. Ross, A. D. Walsh, Lee T. Ross, J. C. Williamson, E. Avenalt, L. A Behrens and C. G. Lambert. Geo. C. Ross was elected president to take the place of the late L. P. Behrens; A. D. Walsh, vice-president, P. P. Chamberlain, vice-president. Frank Towne was appointed cashier and vice-president; E. R. Whitehead, assistant cashier; L. P. Behrens, assistant cashier.

TO LECTURE ON AFRICA HERE FRIDAY EVENING

An illustrated lecture on his missionary experiences in the Congo district of Africa will be given by Dr. Roy Woodhams of Redwood City in the Congregational church next Friday evening. Dr. Woodhams has spent six years as a mediacl missionary in the darkest portion of Africa, and now brings home to his townsmen a story replete with adveture and surprising incidents. A collection of articles brought home by the doctor will add interest to the lecture. Dr. Woodhams is also preparing a series of articles on his experiences in the dark continent which will appear in the Times-Gazette. The lecture Friday night will be under the auspices of the Christian Endeavor of the Congregational Church. Admission will be free, a collection for the upkeep of foreign missions will be taken. The slides to be shown at this time are entirely news, and this is the first lecture to be given by the local missionary since he returned from Africa.

SUPERVISORS ESTABLISH NEW LIGHTING DISTRICT

A new lighting district was created by the Board of Supervisors last Monday, when the returns of an election held recently at Millbrae, were canvassed. The result of the election which was called for the purpose of forming a lighting district from the territory around Millbrae was found to be 50 for the formation of a lighting district and none against such a project.

A resolution prepared by District Attorney Swart was introduced, declaring a lighting district formed, it was adopted upon a motion made by Supervisor Hickey and seconded by Supervisor Brown.

W. A. DOYLE OF MENLO VICTIM OF HEART ATTACK

William A. Doyle, well-known real estate dealer of Menlo Park, died yesterday morning from a sudden attack of heart trouble. Mr. Doyle had not been sick previous to the stroke which caused his death, and his passing came as a severe shock to his many friends.

The deceased was born at San Mateo 55 years ago, but moved to Menlo Park with his father, the late John A. Doyle when he was a boy of fifteen years of age. He has been a constant resident of Menlo Park since that time.

The deceased is the husband of Mrs. Kathryn Doyle, and the brother of Mrs. Charles Brady, Mrs. Joseph Flynn and Mrs. Annie Ahlert. No arrangements have been made for the funeral at the time this issue goes to press.

INCREASE IN POPULATION LIMITED BY LACK OF HOUSES

That the increase in population in Redwood City is only limited by the number of available houses is the statement made this week by Fred Siemands, local realtor. Siemands estimated the average increase of Redwood City at from 16 to 20 families a month, or an increase of from 60 to 69 persons.

The housing situation will become more keen when the cement works begins operations. The matter has already been taken up with the Chamber of Commerce by officials of the cement company who are desirous of finding quarters for the hundreds of men who will be employed by that concern.

LOCAL LEGIONAIRES INSTALL OFFICERS

The Redwood City Post No 105 of the American Legion held their semi-annual installation of officers in the civil auditorium last Monday night. The officers to serve until June 30th are :Stanton E. Mullen, Commander; Royal W. Mingins, Vice Commander; Rev. Edw. H. Molony, Chaplain; Floyd Granger, Finance Officer; John M. Robb, Adjutant; and Edward Bonner, Seargent at Arms.

The serious performance was preceeded by a banquet consisting of a salad, abalone cutlets, half-chicken fried, brussels sprouts, and pie a la mode.

Officers of the San Mateo Post No. 82 were guests of the evening. Their good humored pep and army songs added much to the spirit of the party. They also officiated at the impressive installation.

Through the efforts o Mrs. Elizabeth M. Kneese, county clerk, the Legionaires were able to register for voting in accordance with their plans for a stimulation of community interest within the organization.

NEW SWITCHING SYSTEM REDUCES BELL RINGING

The bells on Beech and Cedar streets, which for years have awakened the echoes (and sleepers) at night with their sonorous clanging for an hour or so at a time while freight trains switched back and forth across the crossings or stood on the switch which operated the bells, will now devote their efforts to warnings when trains are coming and will remain silent at other times. The new order of things is the result of protests of the board of trustees to the Southern Pacific Company. The board protested against the noise of the bells and to the blocking of traffic on street crossings.

A new electric system of switches which will avoid the long standing of trains on crossings, and at the same time stop the bells from ringing for long periods, as they did before, has been installed and was put into use this week. The new system does away with the necessity of the switchman walking out to change switches.

HIGH SCHOOL PLANS SALE OF PROPERTY

A meeting of the trustees of the Sequoia Union High School will be held today at which time the baseball field at the corner of Broadway and the Highway will be placed upon the market. The old high school property will also be sold. This will be sold to the grammar school, as bonds were voted last year for the purchase.

The local social Club entertained at the club house on Friday evening. The old-fashioned dances were enjoyed by all and every one had a delightful time.

KNOWLEDGE OF HISTORY INCREASES PLEASURE OF MOTORING

The motorist who is acquainted with the history and the romance of California, will find new interest in its landscape, according to Motor Land. He may not be able to locate all of the sticks and stones that served as landmarks in days gone by but there are other monuments not so susceptible to the inroads of time. About the gaunt shoulders of Tamalpais there hangs a wealth of legend; Diablo's jagged crown is a storied place; the deserted cliffts of alabaster that fringe Drake's Bay are historic ground; the Auburn and the Placerville routes to Tahoe recall the day of the ox-train and stage coach of the Argonauts and the quest of gold.

Indian, Spaniard and American have left their mark on mountain and stream, in forest and vale. There are few localities in California that may not boast a history rep'ete with romance.

TO MAKE WORLD TOUR

Early next week Lee Ross of the law firm of Ross & Ross will leave for New York, from where he will sail for a tour of the eastern hemisphere. During his travels in Europe Mr. Ross will visit France, Spain, Madiera and England; he will then visit the Holy land and after a week of visiting the spots made sacred by the Holy Writings he will cross to Egypt and spend about three weeks among the ruins of the ancient civilization. While in Egypt, Mr. Ross contemplates a visit to the tomb of Tut Ankah-amen. He will be gone three months.

SCHOOL OPENING POSTPONED

The date for the opening of the new building of the Sequoia Union High School was again postponed this week. The date set is for the 28th of the month. It was found impossible to get the new building in readiness by the 21st at which time it was announced the school would open.

ROBERT E. LEE

One hundred seventeen years ago today Robert E. Lee was born in Westmorland County, Virginia. He was born in the same neighborhood that gave to the world, George Washington, Richard Henry Lee, Light Horse Harry Lee, James Monroe and James Madison.

Robert E. Lee was a good boy and was always attentive to the needs and comfort of his mother, who was an invalid. He was a good student and at the age of 18 was admitted to West Point. He was a young man of high ideals and did what he thought was right at all times.

During the great Civil War he was a great commander and was a generous, big-hearted foe. He knew that he was fighting for a lost cause but once having put his hand to the plough, he could not turn back.

After the war he was one of the most conspicious examples of those who most desired to be a true loyal American and of service to his country. He was a great statesman and his advice to the people of the south helped greatly in the dark days of '66 to '70. He devoted his later years to teaching and his influence upon his pupils was wonderful.

Robert E. Lee was a great American.

REPORT OF HARTICULTURAL COMMISSIONER FOR DEC. 1923

To the Honorable Board of Supervisors, San Mateo County:

As there seems to be a general misunderstanding as to the attitude of this office in regard to the destruction of cypress trees and hedges, I wish to explain that the horticultural commissioner has no authority to compel such destruction unless they are diseased or infested with insect pests and no action will be taken, in any case, unless formal complaint has been made by adjacent property owners. There is no legal restriction of the planting of cypress trees or hedges, but I strongly advise against so doing as it is only a waste of time and money for it seems only a matter of a few years until the cypress in the county are infested with beetle which is destroying so many at present and for which there is no remedy.

The first shipments of strawberry plants, in any quantity, were received; about 17,500 plants. Fruit trees have also commenced to arrive, 2,471 trees, about equally divided as to variety, being shipped in during the month. California shipments inspected during the month have been 177 of 60,907 plants and packages, from Eastern points, 84 of 14,589 plants and packages, a total of 261 shipments and 75,496 plants and packages.

Respectfully submitted,
A .W. TATE, JR.
Hirticultural Commission, San Mateo County.

CONFERENCE ON EDUCATION

Mr. A. C. Olney, Commissioner of Secondary Education, and Mrs. Grace L. Stanley, Commissioner of Elementary Education for the State of California, called a conference of all high school and grammar school principals of San Francisco and San Mateo counties to meet in South San Francisco High School Tuesday and Friday of this week.

The high school section had a most interesting time discussing, "The Junior High," what it is, what it should be, its curriculum and all problems connected therewith. The elementary section discussed, "Self Directed Activities," and "The Reading Circle," and some extremely interesting and instructive suggestions and criticisms were adduced.

Mr. A. J. Cloud, Deputy Superintendent of San Francisco, and Roy W. Cloud, County Superintendent of San Mateo County, acted in conjunction with the State Commissioners. Those in attendance from this section were: Mrs. Frances Hambleton, Ravenswood, Mrs. Margaret L. Shannon, Portola; W. S. Bower, Menlo Park; A. E. Monteith, Miss Hazel Wolverton, Mrs. Eleanor Faure, Miss Natalie Hanson, A. C. Argo, Redwood City; Miss Eleanor Ebert, San Carlos; Mrs. William Burdick, Belmont.

Mrs. Cecelia Blackburn, widow of Daniel D. Blackburn, a native of Australia, passed away in Berkeley last Saturday. Mrs. Blackburn was the mother of the late Dr. D. E. Blackburn, who was for a number of years one of the most prominent politicians of the Coastside of San Mateo County, and for two terms supervisor from the 5th township.

Mrs. Blackburn resided near Paso Robles for a number of years and leaves a large family to mourn her death.

ST. PETER'S PARISH HOLD ANNUAL MEETING

Thirty-two members of the parish of St. Peter's Episcopal church of this city gathered Tuesday evening for the annual dinner and meeting of the parish, held in Sequoia Hotel. Illness on the part of a number of the members of the parish resulted in inability to attend it was stated.

The business of the annual meeting of the church fillowed the dinner. The rector, Rev. Edward H. Molony, addressed the meeting briefly, expressing gratification at the progress of the past year. Renewed interest in the church activities on the part of the old members of the parish, together with the taking in of many new members, was outlined by Rev. Mr. Molony.

Despite the handicap of prolonged inability, through sickness and accident, of the majority of the vestry, Mr. Molony pointed out, much was accomplished during the year, although the loan for building extensions, etc., has been held up until the church's local budget for 1924 is made up and submitted to Bishop Parsons. This depends upon the completion of the every member canvass, it was stated.

Financial Review

The amount of the church offerings, from which the rector's salary of $1,200 is paid, was $1,299.37, and all other obligations were met in full. The Sunday school was reported in a splendid condition. St. Mary's Guild reported the most successful year in its history, receipts being $907.06, leaving a balance of $17.84. This organization achieved a definite goal in depositing $400 in the bank for the building fund. In this accomplishment the Guild has set the pace for the men in building finance.

The parish has paid its full quota of $284 for the nation-wide campaign, and altogether paid $375.74 for diocesan and general church objects outside the parih. "This represents the loyalty and work of the jects outside the parish. "The rep-ident in the parish took even a little part in its interests our objective would be obtained without overburdening any one."

The following financial report was made to the parish members:

Receipts from all resources $3,826.54
disbursements $3,214.10, balance $72.44.

Five hundred and twenty dollars was paid on the Randolph fund, a small floating debt with the bank of which $200 is outstanding.

The church property is valued at $16,500; insurance on building, etc., $5,000.

Election for 1924

Vestry: Messrs. E. H. March, C. B. Parsons, F. Thompson, W. J. Reynick, William R. Dorr, W. D. Keith, M. A. Pope, H. J. Martine, A. E. Mackintosh; senior warden, E. H. March; junior warden, C. B. Parsons; treasurer, M. A. Hope; clerk, F. Thompson.

Delegates to the diocesan convention: Messrs E. H. March, William R. Dorr, W. D. Keith, M. A. Hope, H. J. Martine.

Alternates: F. Thompson, H. J. Martine, Jr., R. F. Chilcott, L. A. Heiner, C. H. Doxsee

Delegates to the House of Church Women: Mesdames Benjamine Walker, L. Heise, E. H. Molony, E. H. March and Miss K. Crowe.

Alternates: Mesdames K. Murray, W. D. Keith, A. E. Mackintosh, Chas. H. Doxsee, H. J. Martine.

SOUTH SAN FRANCISCO HAS GOOD SPELLERS

The South San Francisco High School won first prize in the spelling contest recently given over the radio by Hon. Will C. Wood, state Superintendent of Public Instruction. The senior class of any high school in the state was eligible. Of the fourteen pupils in the senior class at South City, eight were perfect, two pupils missed two words each and four missed one word each. This was practically a perfect score.

Mr. Adams, principal of the school is naturally very proud of the record of his pupils. It is a fine thing for San Mateo county that the honor falls to one of its schools.

Mr. Wood conducted the test to demonstrate that present day spellers are better than the spellers twenty years ago. He gave the test to business men and then to students and the students won out.

Economy is something that everybody preaches and nobody practices unless he can't help himself.

The modern girl seems to think that "the thin veneer of civilization can be helped a lot by a coat of paint.

A GREAT MAN

Benjamin Franklin, one of the greatest men that this country has ever produced, was born Jan. 17th, 1706, in Boston, Mass. In two of the states of the Union his birthday was celebrated day before yesterday.

In early youth Franklin became a printer and as such made his start in life. He was also a great editor and a wonderful statesman. He took part in practically every great event of the Revolutionary history of our country. Yet today he is not any better known as a statesman than he is as the author of Poor Richard's Almanac.

Franklin assumed the non de plume of Poor Richard in order that he might give lessons of thrift and conservation to his friends and neighbors. He had a remarkably clear insight into human nature and he had a wonderfully facile style of writing. He could drive in his facts by telling little incidents of his own life and practically everyone who has ever attended school in the United States knows that he has often paid too much for a whistle. In his warning that we should beware of flattery he tells of his experience with a grindstone on a chilly morning.

A few of his witty sayings are:

"For age and want, save while you may,
No morning sun lasts a whole day."

and:

"Those have a short Lent who owe money to be paid on Easter."

also:

"Get what you can, and what you get hold;
'Tis the stone that will turn all your lead into gold."

Another good piece of advice that Poor Richard gave was:

"In buying goods, it is best to pay ready money, because he that sells upon credit expects to lose five per cent by bad debts; therefore he charges, on all he sells upon credit, an advance that shall make up that deficiency."

Poor Richard was truly a great man.

AN OLD FRIEND

The other night I took a little red book from its place on the shelf and began to read some of the stories I used to read many years ago. They took me back, oh so far, for it was a long time since I had read them. It was a volume of Tennyson's poems.

First I read the "Lady of Shalott" and of the web she wove. Then, "Maude" and afterwards "Dora" with William's child and "Enoch Arden" came back to me. Then I turned to "Lady Clare" and

"It was the time when lillies blow,
And clouds are highest up in the air.
Lord Ronald brought a lily-white dove
To give his cousin, Lady Clare."

Do you remeber the rest of the poem?

Its fine on a winter evening to meet some of these old friends. Somehow they bring up memories. Old associations that have nothing much to do with the poems come unbidden. Some may call it sentiment, perhaps it is, but it isn't bad to be sentimental at times.

And so Tennyson with his gentle sweet songs took me on a journey out of this land of jazz and movies and wonderful things back to the days of long ago. I was glad to go back, hand in hand, with those old friends and commune with them for a little while even though I knew that

"The tender grace of a day that is dead
Will never come back to me."

Try it out some evening when you want a real good feeling to come to you. Maybe you haven't the old fireplace to gaze into between times, and the old prism-spangled hanging lamp has been replaced by a hundred-candle Mazda, but you will be a better citizen if you take a trip to the olden times with a poet you used to know.

"DAYS OF MY AGE"

Bishop William Ford Nichols of the Episcopal Church has just published a story of his life which he calls, "Days of My Age." It is to be regretted that this is a private publication and the volume is for the friends of the Bishop only. Such a book should have a wide circulation for it tells the story of a good man whose life has been one of service.

The autobigraphy details the life of an American whose parentage for nine generations is straight American, a farmer's son who rose to prominence as a pastor and preacher. It also details events of California History that are extremely interesting.

Those who have heard and seen Bishop Nichols can well understand that his autobiography would be well worth while. If there ever was a man whose face radiated beautiful qualities it is this venerable churchman. To hear him is a pleasure. To read of his life and works is a benediction.

CORPORAL PUNISHMENT

One evening last week a friend of ours who lives near the Park in San Francisco was held up. His money and watch were taken and then the hold-up man gave him a terrific wallop between the eyes and his optics have been in mourning ever since.

Ten chances to one if the bandit is caught he will prove to be a boy and will be given probation. This editorial is not a criticism of the parole system for boys. We believe that boys should not be sent to the penitentiary. They should, though, be given some severe punishment.

This brings us to the thought of corporal punishment. In the good old days an infraction of rules usually resulted in a good licking. We knew we would be whipped if we did something wrong—so we thought the matter over twice before we did it. We know that the good citizen is the man who obeys the law because he wants to, but there are a large number of people who obey the law because they are afraid of the punishments. We should make punishments which would act as a deterrant. Any man who deliberately blackens another man's eyes after he robs him should have a similar treatment if he is caught. As our old friend, Mark Anthony, used to remark: "Similia, similibus curantur."

THE WONDERS OF SCIENCE

The things that are being discovered by scientists now-a-days are almost beyond belief. In the olden days it was said that packers saved everything of a pig but the squeal. It was said that you couldn't make a purse from a sow's ear. The fertilizer, however, came in for a good share of the insides of a pig. Last year a Canadian dotor, Dr. F. G. Banting of Toronto, discovered that the cells of the pancreas of a pig contained a substance which he called insulin which would cure diabetes. For his discovery Dr. Banting was awarded the Nobel prize. The news that diabetes can be cured is one of the finest bits of information that has come to the world in years. Diabetes has been one of the most dreaded of ailments as it had hitherto been incurable. Now the lowly swine will supply the remedy for it.

This discovery will add thousands to the profits of packing houses as well as bring joy to thousands of sufferers. By-products are a very valuable part of any industry and we may expect in the near future to have even more wonderful and more marvelous discoveries made. If things keep on in the discovery line, people won't have any excuse for dying.

SURETY BOND REQUIRED ON NON-RESIDENT CARS

A surety bond equal to the market value of the car will be required by the Division of Motor Vehicles on non-resident automobiles before such car can be registered and 1924 license plates issued.

This was announced this week by Will H. Marsh, Chief of the Division, who stated he had made this requirement as a means of protecting the California public from fraud through the purchase of cars not owned by the seller. Such bond must be signed by at least two men of known responsibility or be executed by a bonding or surety company, Marsh said.

"Many instances have occurred where easterners have driven automobiles to California, which had been stolen or only partly paid for," said Marsh. "These cars would be sold to local people and then later the rightful owner would turn up and demand his property. Some of the eastern states do not keep complete records; therefore it has often been necessary to turn the car over to the legal owner. The innocent purchaser thereby lost the price he paid.

"A surety bonl gives the purchaser protection against such deals and firmly establishes his title and interest."

Marsh said a similar bond would a duplicate certificate of owner-for aduplicate certificate of ownership. He said he was proceeding on the authority given him under Section 37 of the new Motor Vehicle Act, which gives the division the right to demand evidence of ownership before a car can be registered.

Three Important Things

In selecting a location for your future home there are THREE important things that one should give much consideration.

1st. What will the ground be worth in Ten Years? [as a rule residential property does not improve in value.]

2nd. What will my surroundings be in the next few years?

3rd. What modern conveniences will I have right from the start? In giving the above consideration we beg to call your attention Graceland Park located just out of the city limits of Redwood City, reached either from Eaton Ave. or the Alameda de las Pulgas road, and in a section that will be the best residential district adjoining Redwood City.

1st. Graceland Park is divided into lots of 2, 3 and 5 acres and is to be sold at a price that insures you a 100 per cent increase in less than Ten Years.

2nd. Graceland Park is restrictsd to homes that cost not less than $7,500.00, which insures you of desirable surroundings.

3rd. Graceland Park gives you the following modern conveniences: Electricily, Gas, City Water, Telephone, Mail Delivery and Good Roads.

Terms are cash but the owner will finance you to the extent of the purchase price paid for your lot to help build your $7,500.00 home.

The property can be shown you by the owner

RAVENSWOOD P.-T. A.

The Ravenswood Parent-Teachers Association at the regular monthly meeting held at the school auditorium Friday afternoon, January 11th voted to accept the invitation of the Runnymede Woman's Club to have a joint card party on Saturday evening, February 8th, the proceeds for the benefit of the school furnishing fund. The following committee was appointed to assist Mesdames Chas. F. Self, Herbert Baier, Fred Workman, A. Hansen, and John Miekle.

Fifty dollars was also voted by the P.-T. A. to be added to the fund for furnishings. Mrs. Victor Harding gave a report on the recent Sixth District meeting at San Jose.

A paper and rag drive was planned for the near future.

Miss Ruth Harris' room was best represented for January roll call.

The meeting adjourned with the singing of the P.-T. A. song.

WOODSIDE COUNTRY HOME DESTROYED BY FIRE

A fire of unknown origin last Monday destroyed the country home of F. A. Zane, San Francisco broker, at Woodside. The flames had made considerable headway before being discovered by the family, who immediately summonded the Redwood City fire epartment. Before the firemen could reach the burning building, the flames were beyond control and consumed all of the upper portion of the structure. A search was made in the lower story in an attempt to save anything that had not been destroyed, but little was saved from the house. The loss is estimated at $20,000.

MOVING SCENES AT SEQUOIA

Moving is on in full swing at Sequoia. The old building which for so many years was the scene of busy activity, and all that makes school life enjoyable is now a scene of desolation. Packing cases fill the halls, class rooms are vacant—despoiled of even the rows of seats where class after class has assembled to study the deeds of ancient Greece or the wonders of modern science, with their studies interspersed now and again by a stray thonght of the "Freshman reception", or of the game with a rival team on the basket ball court.

One who has passed forever through the portals of Sequoia cannot look upon the present changes without a thought for the past, and perhaps a secret wish that he were a boy again in Sequoia as in the old days; days in which Prof. S. P. McCrea taught uprightness and honesty; and, with a band of teachers about him, who by example as well as precept showed manliness and womanliness to the boys and girls, who are now making their way in the world, made a mark that will last longer than the brick and morter which compose the school wherein he worked.

Sequoia has made a mark in Redwood City, and has a place in the heart of every graduate that no other association can fill. Progress is no respecter of sentiment, and the old must give way for the new. The Sequoian looks with pride upon the new and beautiful structure which houses the high school, but mingled with his admiration for the present, are sweet memories of the past which cling to the old building, and link old scenes, old friends and old days together in a web of reminiscence.

OPEN MUFFLERS A FIRE HAZARD

Motorists are being requested by the California State Automobile Association to co-operate in reducing the fire hazard along the public highways. Various Farm Bureaau representatives have informed Association officials that many of these fires are caused by the use of open mufflers on passenger automobiles and trucks.

Representatives of the Contra Costa County Farm Bureau recently told the Automobile Association that the open muffler fire menace was becoming quite serious in that that county and that similar conditions prevailed in other parts of the State. Red hot carbon sparks often ignite dry grass along the highway and start fires which result in large losses, Farm Bureau officials declare.

Keeping the cut-out closed would eliminate much of the hazard of fires from this source, according to the Automobile Association, which has asked motorists to cooperate in the matter. If the present situation continues, the Farm Bureau representatives have indicated that they will ask for legislation that would require mufflers to be equipped with proper appliances for preventing sparks from flying.

Cleaning Without Odor by the F. Thomas Process

Our many years of experience has taught us that it is impossible to do perfect cleaning with cheap, inferior methods. That is why we found it necessary to invest nearly $500,000 in the equipment of a plant and the establishment of an expert organization to do the quality of work demanded by our customers.

With the "F. Thomas Process" we not only remove every particle of dust but we return your garments without that usual disagreeable smell of gasoline. Every drop of gasoline we use in cleaning is redistilled and very highly refined.

Raw gasoline—the kind that you buy for your automobile—is full of heavy oils and unfit for cleaning fabrics. It is little better than ordinary distillate and leaves a sickening "gasoline" smell in your clothes

POTATO MEN TO TAKE ACTION

GROWERS OF POTATO SEED TO MEET AT SACRAMENTO

County Horticultural Commissioner Tate is anxious to have a representation of the potato growers of San Mateo county at a meeting of growers and dealers, and others interested in the production, selling and planting of certified potatoe seed in California which will be held in the office of the Director of Agriculture, State Department of Agriculture, 1015 L. Street, Sacramento on Monday, January 21 at 2 o'clock.

This meeting is called in accordance with the provisions of Section 4 of the California Fruit and Vegetable Standardization Act, which provides that before any change in rules and regulations governing the conduct of any work covered by the law can be made a public meeting must be held and parties interested in the work throughout the State of California duly notified.

Growers and shippers of the certified seed and potato growers of San Mateo county should be interested in this meeting and make an effort to attend and see that representatives are in attendance. There will be a discussion of the potato situation in California and the relation of the Department of Agriculture to the industry. The Director is anxious to ascertain whether the law as handled at present, is giving satisfaction. Rules and regulations for conducting the work will also be considered, together with the advisability of continuance of the work as at present organized.

FARMERS GOING TO HORSES AGAIN

REVIVAL OF HORSE ON FARM SHOWN BY TANNERY SALES

Old Dobbin, who a few years ago was thought to be following the ictheosorus and the dodo to extinction, so far as farm work was concerned, seems to have taken a new lease on life. According to reports from the Frank Tannery here, extensive manufacturers of all kinds of leather, the market for harness leather has been improving for the last year, and at present is better than it has been since the war.

The increased demand for harness leather is said to be due to the fact that large and expensive tractors, bought during the flush of the days of the war are now going into the discard on the average farm, and the horse who since his mechanical rival began work, has been sitting by, is once more brought into use.

While the small tractor is holding its own on the farm, the larger types are giving way to the horse, who once more draws the plow and harrow on the small farms of America. On short hauls in the city, also, the horse has demonstrated his worth; and the number of horses so used is increasing, rather than deminishing.

Ford
THE UNIVERSAL CAR

Looking Ahead

LAST Spring a total of 350,000 people were disappointed in not being able to obtain deliveries of Ford Cars and Trucks, as orders were placed faster than cars could be produced.

The demand for Ford Cars and Trucks this Spring will, according to all indications, be far greater than last Spring.

Winter buying has been increasing at a greater rate than ever before.

Actual retail deliveries the past 60 days totaled 308,170 Ford Cars and Trucks, an increase of 1,961 a day over a year ago.

Over 200,000 people have already ordered Ford products on our purchase plan, the majority of whom will take delivery in the Spring.

The above facts are given with the suggestion that you list your order promptly with a Ford dealer if you contemplate the purchase of a Ford Car or Truck for use this Spring or Summer and wish to avoid delay in delivery.

NEWS OF MENLO PARK

Mme Louise d'Andigne, wife of Count Louis d'Andigne, descendant of one of the outstanding families of France, passed away in Paris last Saturday after a residence there of thirty years. She was known here in her youth as Miss Louise Coleman. The Coleman family, consisting of the mother, the late Maria Coleman, Miss Mary Coleman, Miss Louise Coleman and the late James V. Coleman lived in the Major Rathbone estate now owned by Leon Douglas in the early eighties. Mrs. Macdonough, a sister of Mrs. Coleman and both sisters of William S. O'Brien of Comstock fame, owned the property afterwards sold to B. A. Barney at Atherton. Having inherited the O'Brien wealth both sisters entertained lavishly at their respective homes and were known for the brilliant entertainments they gave. The sisters took a deep interest in church affairs and all old timers will recall the numerous brilliant entertainments given for the benefit of the Church of the Nativity. The best artists of that time took part in the programs. These events of bygone days gathered together the wealth and beauty of the peninsula, accomplished and brilliant entertainers. There came out from the east two young men, Dr. May and Henry May, both university graduates. They wedded the Coleman sisters, going shortly afterwards to the East. Henry May died there and the widow married the count Mrs. Coleman during the heydey of her social glory erected the coleman mansion in Menlo Oaks at a cost of nearly $100,000. For some mysterious reason the beautiful home was never occupied by the builder and for over twenty years the big building remainded the prey of the woodpecker. It was purchased by St. Patrick's seminary some time ago and is occupied as a dormitory for the junior students. J. V. Coleman, the male member of the family was a splendid otraor, lawyer and scholar. He represented this county in the assembly in the eighties. He made a campaign for governor on the democratic ticket but was defeated. The Coleman family is pleasantly recorded in the annals of Menlo's past and the death of Mme. d'Andigne recalls fond memories of the days when its members shone in social brilliancy and when Louise Coleman romped o'er the green fields of her home, a happy, carefree, winsome lass.

The Woman's Exchange, Mrs. C. L. Kurtz proprietor, opens today with a big supply of hame-made cakes, pies, bread, etc. Come early and avoid the rush. Secure one of those choice angel cakes, such only as Mrs. Kurtz can make. Remember the place Mrs. Kurtz's home near the oil station. The exchange will be opened all day and evening.

E. B. McIntyre, a former young young man, has been made manager of the retail department of the Christenson Lumber Company of San Francisco. The concern recently took over the business of the Olsen, Mahoney Lumber Company which will be the retail department. Mr. McIntyre has been connected with the Christenson Lumber Company ever since he left Menlo Park. He is a lumber expert and one of the best known business men in the city.

Paul Walsh left yesterday for Spokane to join Boyd Braden who is engaged in touring the country showing the Powder River film for the government. Young Walsh expects to be absent for some time.

Mrs. Kate Welsh, who died at Palo Alto, was widely known in Menlo Park. For many years she was the housekeeper for Dr. Decker.

Thursday of last week George Murray and Thomas Harrington had a narrow escape from serious injuries when their truck went over the grade near the old Moore place on the Woodside grade. The road was slippery that morning and as the machine turned the corner it skidded off the road and over the embankment turning over and landing right side up below. The town men escaped with slight bruises. The truck was slightly damaged.

J. B. Casserly, who passed away last Saturday at his Hillsborough home, was well known in Menlo Park, having spent many years of his youth here. As a boy he passed his week ends with his uncle, the late John T. Doyle, and later when he married the beautiful Miss Cudahy, lived in the MacBain house on Mills avenue for two seasons. The career of the Casserly family is intimately interwoven in the early history of Menlo Park. In the latter fifties and early sixties the land from the San Francisquito creek to Redwood City and from the hills to the bay was nearly all owned by the Selbys, Athertons, Doyles, Casserly's and Johnstons. In 1861 Eugene Casserly and wife, sister of John T. Doyle, came with J. B. Cassly, their young son, to live at the Woodside dairy, now Menlo Oaks and owned by the late I. C. Woods. They occupied a small cottage where the attractive residence of Judge Charles A. Shurtleff now stands. It was there that young Casserly crooned in the cradle. Casserly, the elder, formed a law partnership with his brother-in-law, both becoming the leaders of the bar of California. This partnership continued until Eugene Casserly was elected to the United States Senate by a democratic legislature in the early seventies. Casserly made a brilliant record in the senate. He is known to fame by his opposition to the famous bill introduced in the senate in his term by friends of the Southern Pacific Railroad Company and the Central Pacific Company to have Goat Island made a terminus for both concerns. The people at that time were opposed to the project and bitterly fought it through their representatives in Congress. Casserly was loyal to his constituents and in a ringing and eloquent speech in the senate defeated the bill. Time and subsequent events have proven that it would have been better for San Francisco had the railroads secured the terminus as much development would have followed. The government has since allowed the property to lie dormant. Casserly, however, was faithful to his trust. The senator died in 1883, leaving a big estate. At the time of his death his law practice was enormous. J. B. Casserly was admitted to the bar but never entered into active practice. For many years he managed his mother's estate. he died some years ago. The base hospital property was at one time owned by the Casserlys. The deceased is survived by his widow, four children and a sister.

Last Sunay evening J. E. Cordoza, the Lemon avenue farmer, collided with the palm tree in the square near the depot. Mrs. Cordoza was thrown through the windshield of the automobile. He was driving and was severely injured. She was removed to the Palo Alto hispital for medical treatment. The palm will most likely be removed as it stands in the middel of the square and is a menace to autoists. The tree was removed several years ago by the Southern Pacific Company from the lawn in front of the station to its present location. The palm was donated to the agent here for the beautiful lawn that then existed in front of the depot by the late James G. Flood and tenderly planted by the Bonanza king.

R. E. Miller, the Atherton capitalist, has been chosen presient of the Liberty bank in San Francisco and Charles Partridge, his nephew by marriage, who resides at Atherton, has been made manager. Mr. Miller recently relinquished the presidency of the Owl Drug Company.

Mrs. Roy Bishop, who resided last season in the Mulcahy place and the year before at the Cluff home, is an aunt of Millicent Rodgers, the forty million dollar heiress, who last week married the Austrian count, or rather, no account, with a name that would dislocate one's jaw to attempt to pronounce. He is twice her age and broke. The forty millions and the pretty heiress looked good to him. The spectacle, however, does not look so well to Papa Rodgers and he may have something to say about the distribution of this vast sum.

Sensitive man knows there are worse knocks than those found on his car.

The most economical husband was one who, when his wife asked for a new coat, sent her to the public bathing pool to get a coat of tan.

MEAT INSPECTION ESSENTIAL TO HEALTH OF MEAT CONSUMERS

There are a number of diseased conditions in animals which are transmissable to man. Meats when contaminated with dangerous germ afford a splendid medium for the transmission of disease to human beings. These facts were seriously consiered by the citizens of various municipalities in California and resulted in the passage of ordinances requiring that all meat offered for sale therein must first undergo proper inspection. The ordinances were drawn in accordance with the terms of the California meat inspection law, and, with the co-operation of local authorities, it is possible for the State Department of Agriculture to insure a wholesome supply of meat to consumers living in those communities. This form of inspection serves a four-fold benefit. First and most important it prevents the sale of unwholesome meats for public consumption; second, the honest butcher is protected against the activities of unscrupulous dealers; third, the livestock sanitary authorities are enabled to more readily locate foci of disease and fourth, the producer of healthy livestock is afforded more favorable market conditions when disposing of his animals.

In the various parts of the State where this form of inspection has been inaugurated it has been endorsed by the consumers, slaughterers and butchers as a most effective means of affording the public adequate protection against the consumption of unwholesome meat and at the same time rendering aid and assistance in the development of the meat and livestock industries.

WHAT WEIGHT AND MEASURE STANDARDS MEAN TO THE HOUSEWIFE

The Division of Weights and Measures of the State Department of Agriculture is empowered to standarize weights and measures of practically all articles of commerce. During the past two or three years standards have been set for bread, coal, wood and many other household articles.

As an illustration of the importance of these standards to the consuming public, statistics on the amount of bread produced are interesting. According to figures recently compiled the average individual eats approximately six loaves of bread a month. This means that there are at least 252,000,000 loaves of bread consumed in California each year. The standard loaves of bread are now sixteen and twenty-four ounces. Prior to the establishment of these standards, which were made in 1920, bread was baked in sizes to suit the baker ranging anywhere from ten to eighteen ounces and being sold at all prices. At this time complaints of shortweight and overcharging were numerous. During the year 1923 there were only seven complaints with regard to short weight bread and three of these complaints were settled out of court. When we consider the vast number of loaves consumed in a year, the importnace of this standarization measure is recognized.

NEWS OF WOODSIDE

The fire demon collected his toll from Woodside this week when the residence of F. A. Zane went up in flame. The fire started in the roof of the building on Monday morning and had gained cosierable heaway before it was discovered. The Redwood City Fire Department responded to a telephone call but there was a shortage of water that rendered its efforts unavailing. Only a few pieces of furniture were saved from the burning house. Many valuable works of art and irreplaceable relics were destroyed. Among the pieces saved was a highly valued chair that had belonged to Abraham Lincoln. The origin of the fire is undetermined but is presumed to have been due to a defective flue.

The house built by Frank Merrill same time ago, just off the Woodside grade, had its foundation, not upon sand exactly, but upon soft earth that refuse to hold up the weight of the house. To prevent its being entirely engulfed, he has found it necessary to jack up the houce and fit it with a more substantial foundation.

Mortimer Fleishacker and family have just returned from an extended trip through Europe and down into Egypt. Here he visited the recently discovered tomb of Egypt's king which he thinks is receiving more publicity than it deserves. During their absence a large sun porch has been added to their home here.

The ship building yards of C. T. Bradley are preparing to resume work. Mr. Bradley is getting ready to build another boat for his resort at Lake Tahoe.

The small community of Woodside boasts seventeen radio receiving stations. If this same ratio holds throughout the country it can readily be seen why the radio equipment business has grown to be one of the largest industries in the United States. It would seem that in the long run this might have an adverse effect upon the motion picture busines for when one can sit at home ad listen to such entertainments as are sent out by the General Electric Station at Oakland, for example, the temptation to get away for an evening's enjoyment is much lessened.

It has been impossible to get the boys of the Woodside school to realize that the football season is over and no amount of persuasion could awaken their interest in baseball. But a day or two ago came a challenge from Los Lomitas for a baseball game and within a few minutes thereafter the bats and gloves were resurrected and brought forth from their hiding places and claims were being put forth for positions on the team, so that it can now safely be said that football has gone into the discard until next fall.

Mrs. Frank L. King has returned to her hame on Duane street from Reno, Nevada, where she had been spending the holidays with her husband and son, who are associated in the law business there.

Miss Bonita Nobs, daughter of Mr. and Mrs. Fred Nobs of Grass Valley, is visiting her uncle, Stanley Smith, and family on Finger avenue. Mrs. Nobs expects to join her daughter here today for a visit.

WILL REPRESENT CALIFORNIA AT WOMANS CLUB CONVENTION

Mrs. C. E. Cumberson, formerly of this city, will be San Francisco's representative to the Washington conference of the Women's International League for Peace and Freedom, May 1 to 6.

Women of twenty-four nations will send representatives to the sessions, which carry on the work of previous meetings at the Hague and in Geneva. Jane Addams, who has completed a world tour in the interest of peace, will preside at the sessions to be held in the national capital.

Mrs. Cumberson, a member of the League's executive board, is regional vice-chairman for the Pacific Coast section of the United States. She has been the prime mover in organizing the women of the states of Washington, Oregon and California to aid in the world peace drive.

Mrs. Cumberson was one of the most active workers in forming the Redwood City Woman's Club and assited materially in the erection of the club house. She was also one of the originaters of the idea of marking El Camino Real in San Mateo county with mission bells. The Cumbersons moved from Redwood City five years ago, when their home was burned.
